Github: <https://github.com/lualin>

Objective

My proactive and positive approaches will bring the best results with clients and team using great communication skills learnt from liaising with teammates in bootcamp and dealing with a variety of clients as an export operator role.

One of my strengths is to bring the best desired services to customers to ensure that their requirements are met appropriately by communicating with them in a timely manner. All required tasks have to be completed within the desired time frame before the deadline and be handled correctly as per given requirements.

I would love to work in a team with great relationships and this will also reflect on client relationships respectively to resolve/accomplish their valuable needs in a timely manner.

Skills

- Software Development/Design
 - Front-End (HTML/CSS/JS, React, TailwindCSS, Bootstrap, TS)
 - Back-End (Express, Node.js, Python-Django/Flask, json)
